

## Valley Violin & Guitar Performance Requirements

-Please provide an area approximately 5 ft x 5 ft, away from pathways and doorways. For wedding ceremonies, please place us where we can clearly see the ceremony and processional.

-Please provide 2 armless chairs.

-We are an acoustic ensemble. Amplification is generally not necessary for wedding ceremonies and small or medium sized gatherings. If you prefer to have us amplified, please contact your DJ to provide equipment etc.

-For outdoor events, please provide a market umbrella as shelter from sun, dampness, debris, etc. Be sure to check with your venue to find out if they can provide an umbrella or if you will need to provide your own (party rental stores are a good source if your venue cannot supply one).

-For outdoor events, please plan ahead in case of bad weather. We are unable to perform in extreme heat, cold, wind or especially dampness (these conditions damage our instruments). If the weather is bad enough to make your guests uncomfortable, we will most likely be unable to play. Please have an alternative indoor location available.

I have read and agree to the above terms and conditions:
